

MAINTENANCE PLANNING

- Plans with grouping IDs & asset lists
- Frequencies & reusable task references
- Plan duplication for fast iteration
- CSV import / export

STRATEGY-TO-PLAN GENERATION

- Auto-generate plans from RCM strategies
- Warnings, not blocking errors
- Placeholders for incomplete items
- Fresh tasks per generation run

CFIHOS COMPLIANCE SUITE

- Browse tag & equipment class hierarchies
- Bulk-assign tag types to CFIHOS classes
- Picklist-validated property capture
- Live property completion %

RCM STRATEGY MANAGEMENT

- Equipment class, task type & frequency
- Inline edit, dirty tracking, bulk update
- Asset assignment filtered by class
- Compare-and-diff CSV import

BOM & MATERIAL MASTER

- BOM catalogue with line items
- Material master: UOM, price, manufacturer
- Asset-to-BOM linking
- CSV import / export on both

CENTRAL DATA REPOSITORY

- One aligned source of asset truth
- Hierarchy, BOM, strategy & CFIHOS together
- Migration-ready packages per destination
- Feeds ERP, CMMS, DMS, RAM & APM

PERFECT FOR

- **Oil & gas, pipeline, LNG** — equipment hierarchies, CFIHOS handover, brownfield remediation
- **Utilities — power, water, wastewater** — network and treatment-plant structures
- **Manufacturing — process and discrete** — equipment master cleanup, spares alignment
- **Engineering & EPCs** — capital project handover, CFIHOS data packages
- **Mining and minerals** — equipment registers, mobile and fixed-plant strategies
- **Infrastructure — rail, ports, roads** — linear and nodal asset hierarchies
- **Renewables & energy transition** — wind, solar, hydrogen asset registers
- **Data quality & master-data teams** — audits, harmonisation, ERP/CMMS migration prep

ONE SOURCE OF TRUTH

Hierarchies, classifications, BOMs, strategies and CFIHOS data aligned — so when it lands in your ERP, CMMS, DMS, RAM or APM, it lands clean.

FLEXIBLE & CONFIGURABLE

Every classification, validation, and transformation rule is yours to shape. Adapt the tool to your standards.

STANDARDS-AWARE AUTOMATION

Built around how real asset organisations work — ISO 14224, CFIHOS, parent-child integrity, mandatory checks.
